- ◆ Key Layout Modified Via Overlay - No Enclosure Re-tooling Required
- ◆ Two Year Average Battery Life
- ◆ Approx. dimensions: 6.8" x 2.3" x .9"
- ◆ Comfortable, Sculpted Hand-Held Design

DESCRIPTION

The most flexible remote control solution available, the Innotech Systems' Customizable I Universal Remote is the answer whether you need 100 remotes or 100,000. You may define your own proprietary key codes, draw from the comprehensive Innotech Systems remote control library of entertainment system codes, or combine both for applications such as home theater and PC/TV.

The appearance of your design is uniquely yours, through the use of an easily modified overlay and keypad. You define the layout for designs from as few as 4 buttons up to 64. The remote control uses a standard plastic enclosure, thus saving on the high design and tooling costs associated with custom plastic molding. Unused key positions are simply masked out.

KEYPAD MATRIX	TYPICAL APPLICATIONS	
 <p data-bbox="126 1146 558 1283">The flexible 64 position matrix allows you define a wide variety of possible keypad layouts for your own individual look.</p>	 <p data-bbox="586 1146 1024 1213">"8 in 1" Universal Remote Control with dual "navigator" clusters.</p>	 <p data-bbox="1065 1146 1487 1213">Imaging controller with nine keys defined out of 64.</p> <p data-bbox="1065 1255 1487 1323">Colors may be used to emphasize functions.</p>

Three possible configurations are shown to illustrate the versatility of the Innotech Systems Customizable Universal Remote Control. You may easily customize your layout for your own particular needs and to create your own individual look. The remote control may include just your own proprietary codes or draw from the unexcelled Innotech remote control library.
